MAT – The Industry 4.0 Solution for Smart Maintenance

Alacero Technology Committee Meeting November 5, 2017 Cancun, Mexico

Key questions you need to answer when running your operations

Do you know the criticality level of each equipment you are operating?

• Are you sure that you have chosen the best possible asset strategy?

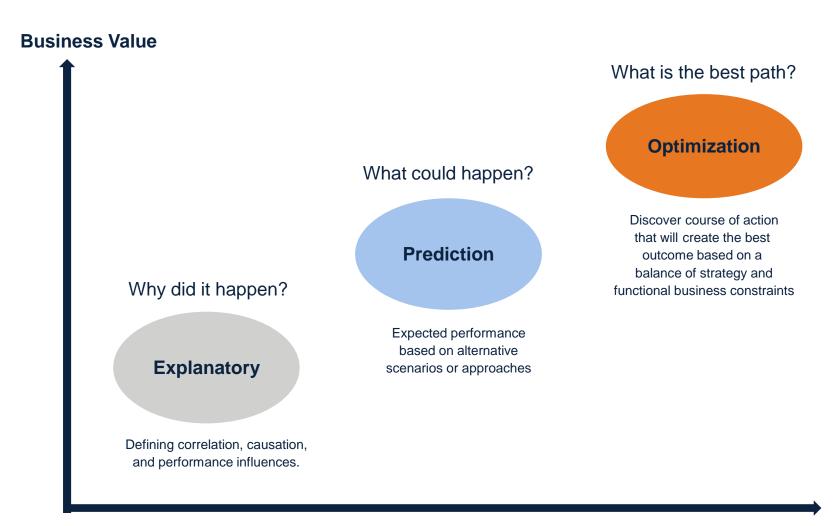

How often are you re-evaluating your asset strategy?

 Do you know why you spend hundreds of thousands of dollars on condition monitoring?

.

Steps in creating business value based on improved knowledge and analytics

Increased insight and foresight

Are you doing maintenance or are you managing your assets?

PAST

FUTURE

Traditional maintenance practice

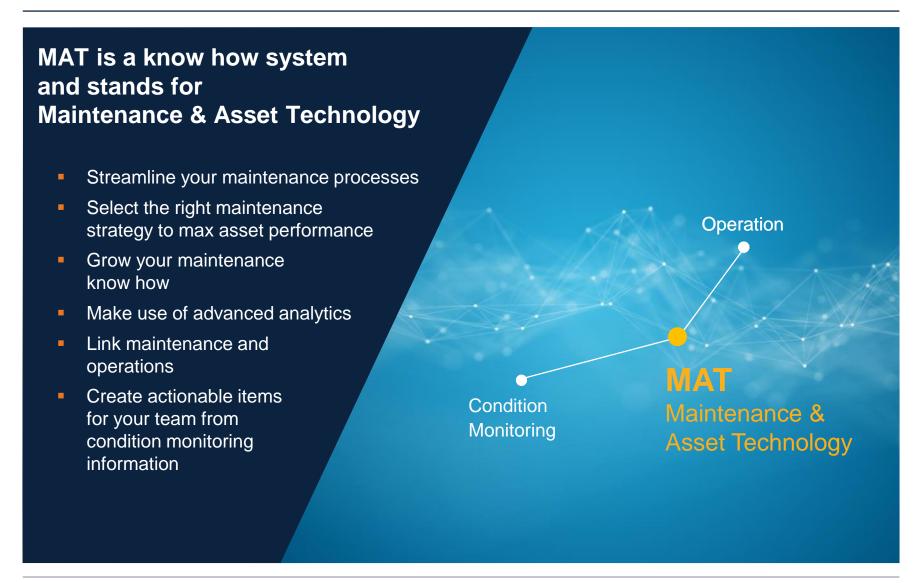

- Static maintenance strategy
- Based on empirical experience of hard to get experts
- Mostly time cycle or break down based maintenance actions
- Random condition monitoring investments without clear overall strategy
- Focus on "in budget"
- Less focus on total cost of ownership
- CMMS Systems focusing on tracking and data archiving

Smart maintenance & asset management

- Dynamic adjustment of strategy
- Condition based, predictive, preventive measures
- Continuous analysis of weaknesses
- Clear transparency on where to invest in condition monitoring
- Focus on creating value and total cost of ownership
- Decisions supported by data analytics
- Learning on both empirical experience and information based

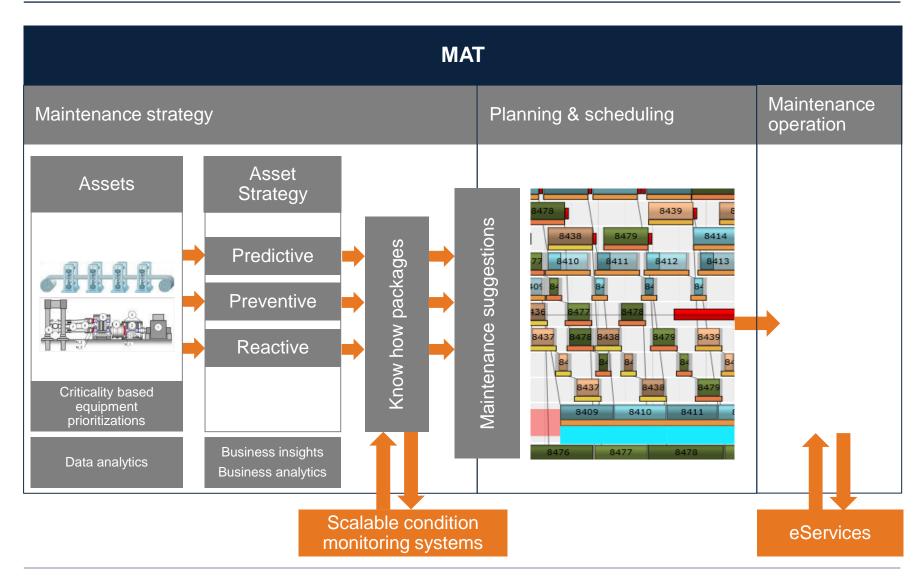

MAT is an Industry 4.0 know how system bringing the future of maintenance to your operations

How MAT is ensuring a holistic approach when supporting your maintenance operation

MAT is consisting of different packages which is supporting a step by step implementation approach

1

MAT Basic Package

- Hierarchical data management
- Criticality based equipment prioritization
- Advanced scheduling
- Mobile work execution
- Traditional CMMS functionality

MAT Know How Packages

Predictive Maintenance

=> Maintenance and inspection suggestions

Planning and Shutdown Optimizer

- => Minimum number of shutdowns
 - => Maximum net production
- Reporting / Business Intelligence
 - => Insights and analytics

4 Strategic Asset Management => Risk/Cost optimization of maintenance activities

Condition Monitoring

Production Planning

The MAT Basic Package is covering all minimum aspects for your maintenance

MAT					
ASSET MANAGEMENT	MOBILE MAINTENANCE	COST ALLOCATION			
Master data management	gement Order transmission Offer calculation		Predictive Maintenance		
Order management	nagement Order information Purchase order				
Reporting	Checklists	Performance verification	Planning and		
GRAFICAL RESOURCES	Feedback (h, material,) Billing		Shutdown		
DISPOSITION Planning and schoduling	TECHNICAL DOCUMENTATION	INTERFACES	optimizer		
Planning and scheduling	DOCUMENTATION		Reporting &		
Qualification matrix	Versioning & Permission	Automation / DAQ	Business Intelligence		
IMPROVMENT AND DEVIATION MGMT	Approval process	Business / ERP	Strategic Asset		
	MANAGEMENT COCKPIT	Indications			
Decision tree	(RAMS)	MATERIAL	Management		
Deviation evaluations	Dash boards	MANAGEMENT			

Data Lake - Ready for Analytics

Kno	1	Actionable Information						MAT		MAT
nain		CMS and PDA Interface						MAT		MAT
f Do	0	Failure registration		Paper		MAT		MAT		MAT
Level of Donain Know How		Actual works registration		Paper		MAT		MAT		MAT
		Scheduling process		XLS		MAT		MAT		MAT
		Spare parts and work orders planning (automatically)		GAP		MAT		MAT		MAT
		Spare parts and work orders planning (manually)		XLS		MAT		MAT		MAT
		Technical documentation management		Sharepoint		MAT		MAT		MAT
		Hierarchy of equipment		SAP PP		MAT		MAT		MAT

MAT will help you to reducing your maintenance cost and increasing your overall productivity

Benefits

- Reduction of maintenance cost
- Increase in productivity
- Enabling and building maintenance domain know how
- Optimization of maintenance operation and asset performance
- Possibility in analytics on maintenance supporting strategic decisions
- Ensuring interface to ERP, L2, L1, CMS

The ultimate Industry 4.0 goal is to maximize productivity by ensuring digital unity among key operating systems
